Is there one Pipette missing in your set?

It must be the Multipipette® E3 / E3x! These electronic dispensers combine easy handling during dispensing with a broad range of features to make repetitive pipetting tasks even more efficient and easier! The Multipipette® E3x offers additional high-end applications, such as titration and aspirating of supernatants or sequential dilutions.

In combination with the Combitips advanced® the system is an essential lab tool ideal for all liquid handling applications, accommodating more than 5,000 different dispensing volumes between 1 µL to 50 mL.
